

MODERN SLAVERY STATEMENT

This Modern Slavery Statement is made pursuant to the Modern Slavery Act 2018 (Cth) by Horizon Gold Limited ACN 614 175 923. This policy affirms our commitment to contribute to ending all forms of modern slavery and outlines our approach to reducing the risk of modern slavery practices within our supply chains and operations.

About Horizon

Horizon Gold Limited is an ASX-listed (ASX: HRN) gold exploration and developer based in Perth, Western Australia.

Our stance against modern slavery

We are committed to conducting business responsibly and ethically and to ensuring that all aspects of our business practices, including our supply chains, are free from any form of slavery. We reject any and all forms of modern slavery which can take the form of unpaid or underpaid servitude, human trafficking and forced labour. We are committed to implementing effective systems and controls to ensure that it does not take place within our own business or through any of our supply chains.

Our risk assessment & due diligence

We assess the risk of modern slavery taking place in our business by identifying and managing any areas of concern within our business operations and any external suppliers. As an Exploration Mining Company, operating only in Australia, there is no risk of modern slavery occurring within our direct business operations. However, we recognise we could be indirectly exposed to the risk of modern slavery and human trafficking through our supply chains.

Due to the nature of our business, we do not make use of high risk supply chains, which are susceptible to modern slavery risks. We have taken the following actions to manage that risk:

- Conducting due diligence on third party service providers; and
- Partnering with suppliers who share our stance on modern slavery.

We are committed to undertaking our due diligence processes when contracting with external suppliers and to identifying and assessing any indications of suppliers being of high risk. We will not work with high-risk suppliers unless we have conducted the appropriate assessment that our standards will not be compromised.
